

**Evaluating Fieldbooks,
living Collections
and Herbarium Specimen
of
Prof. Werner Rauh
(1913–2000)**

THE WERNER RAUH HERITAGE PROJECT

Prof. Werner Rauh (1913–2000)

- studied **Botany, Zoology, Chemistry** and **Geology** at Leipzig, Innsbruck and Halle (Saale)
- 1956: **associate Professor** of Botany at Heidelberg University
- 1960: **full Professor** and **Director** of «Institut für systematische Botanik und Pflanzengeographie» (now HIP)
- 1982: **Retirement**

THE WERNER RAUH HERITAGE PROJECT

Prof. Werner Rauh (1913–2000)

- More than **36 expeditions**: Europe, the Americas, Southern Africa & Madagascar, Papua New Guinea
- **90** hand written **fieldbooks**
- **8.776 pages** with detailed informations on his collections
- approximately **19.462 collections** with field numbers
- mainly **Cactaceae** (~1.500 accessions), **Bromeliaceae** (~7.000), **Euphorbiaceae** (~1.100), **Orchidaceae** (~1.600) and **succulent plants from Madagascar** (~1.500)

THE WERNER RAUH HERITAGE PROJECT

The Project

- **scanning fieldbooks**: done 2008/2009.
- **digitizing herbarium sheets** with type material: 1.200 sheets digitized in 2009 (ALUKA/API), work in progress.
- creating relational **MySQL database**: done December 2009 until June 2010.
- creating **GUI**: done April 2010, new version is in preparation.
- **storing data** to database: Chile 1984 & Madagascar 1994 completely stored in March 2010; basic recording of Peru 1954 & 1956 stored August & September 2010, going on until ...
- etc.

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (1)

- **Rauh's handwriting**: often nearly indecipherable:

 - **K106** = Cactus No. 106, collected Peru 1954 and different species collected Peru 1956.
 - There are also **P**-numbers from Peru 1954/56!
 - **M1016** = Plant No. 1016, collected Madagascar 1959.
 - **T247** = Plant No. 247, collected Tanzania 1960.
 - **Ke787** = Plant No. 787, collected Kenya 1960.

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (2)

- **different field number systems**
 - **K7** = Cactus No. 7, collected Peru 1954.
 - **KXLII** = Cactus No. 42, collected Peru 1956.
 - **K106** = Cactus No. 106, collected Peru 1954 and different species collected Peru 1956.
 - There are also **P**-numbers from Peru 1954/56!
 - **M1016** = Plant No. 1016, collected Madagascar 1959.
 - **T247** = Plant No. 247, collected Tanzania 1960.
 - **Ke787** = Plant No. 787, collected Kenya 1960.
 - starting 1961 (?) Rauh used **numbers without letters**.

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (3)

- often **not only single numbers**
 - **K55d** (1956) = Type collection of *Matucana yanganucensis* var. *salmonea*.
We find **K55**, **K55a**, **K55b**, **K55c** ... as well in the FDB!

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (3)

- often **not only single numbers**
 - **K55d** (1956) = Type collection of *Matucana yanganucensis* var. *salmonea*.
We find **K55**, **K55a**, **K55b**, **K55c** ... as well in the FDB!
 - **66210/I**, **66210/II** ... **66210/XVII** (Peru 1984)

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (3)

- often **not only single numbers**
 - **K55d** (1956) = Type collection of *Matucana yanganucensis* var. *salmonea*.
We find **K55**, **K55a**, **K55b**, **K55c** ... as well in the FDB!
 - **66210/I**, **66210/II** ... **66210/XVII** (Peru 1984)
 - Numbers were used twice and more times

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (3)

- often **not only single numbers**
 - **K55d** (1956) = Type collection of *Matucana yanganucensis* var. *salmonea*.
We find **K55**, **K55a**, **K55b**, **K55c** ... as well in the FDB!
 - **66210/I**, **66210/II** ... **66210/XVII** (Peru 1984)
 - Numbers were used twice and more times
- a lot of **reversal of digits**, even in protologues!

THE WERNER RAUH HERITAGE PROJECT

Difficulties and complexity of Rauh's fieldbooks (3)

- often **not only single numbers**
 - **K55d** (1956) = Type collection of *Matucana yanganucensis* var. *salmonea*.
We find **K55**, **K55a**, **K55b**, **K55c** ... as well in the FDB!

 - Numbers were used twice and more times
- a lot of **reversal of digits**, even in protologues!
- **No quotable numbering** of booklets and pages.

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEIDRAUHFDB000A_004**

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEID RAUH FDB 000A _004**

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEID RAUH FDB 000A _004**

HEID = Heidelberg

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEID RAUH FDB 000A _004**

HEID = Heidelberg

RAUH = Collection Rauh

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEID RAUH FDB 000A _004**

HEID = Heidelberg

RAUH = Collection Rauh

FDB = Fieldbook

(FDD = Fielddiary, HRB = Herbarium sheet etc.)

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEID RAUH FDB 000A _004**

HEID = Heidelberg

RAUH = Collection Rauh

FDB = Fieldbook

(FDD = Fielddiary, HRB = Herbarium sheet etc.)

000A = Booklet 0A, Peru 1954, No. K7–K106

THE WERNER RAUH HERITAGE PROJECT

Solutions (1)

- **Standardized page number**

Example: **HEID RAUH FDB 000A _004** [\[klick\]](#)

HEID = Heidelberg

RAUH = Collection Rauh

FDB = Fieldbook

(FDD = Fielddiary, HRB = Herbarium sheet etc.)

000A = Booklet 0A, Peru 1954, No. K7–K106

_004 = Page No. 4 = Cover page

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 1: **540012008306**

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 1: 54 00 1 2 0083 06

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 1: 54 00 1 2 0083 06

Year: 1954 (Peru)

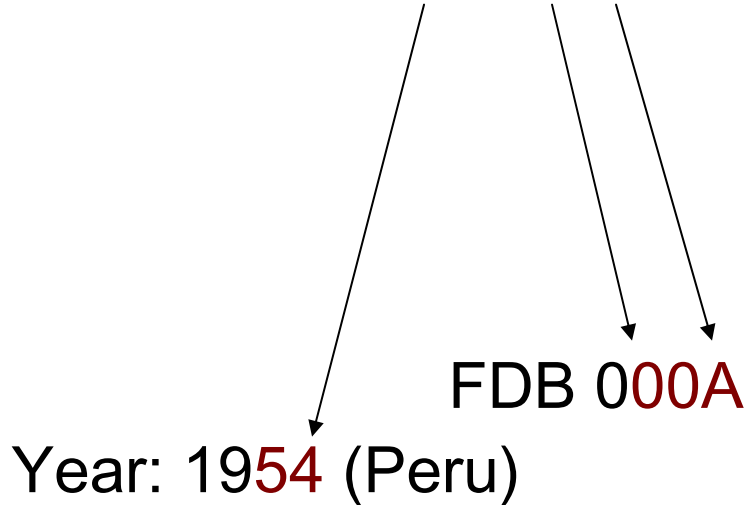

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 1: 54 00 1 2 0083 06

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 1: 54 00 1 2 0083 06

E	→ 1
K	→ 2
Kal	→ 3
Ke	→ 4
M	→ 5
P	→ 6
T	→ 7

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

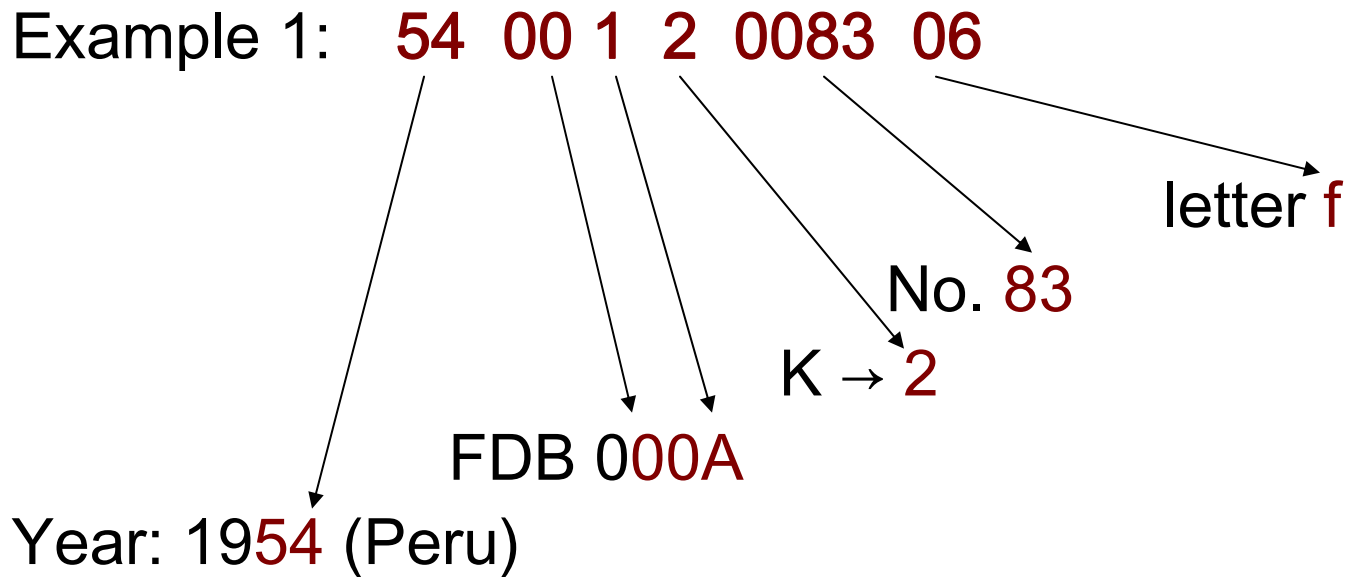

Example 1: 54 00 1 2 0083 06

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

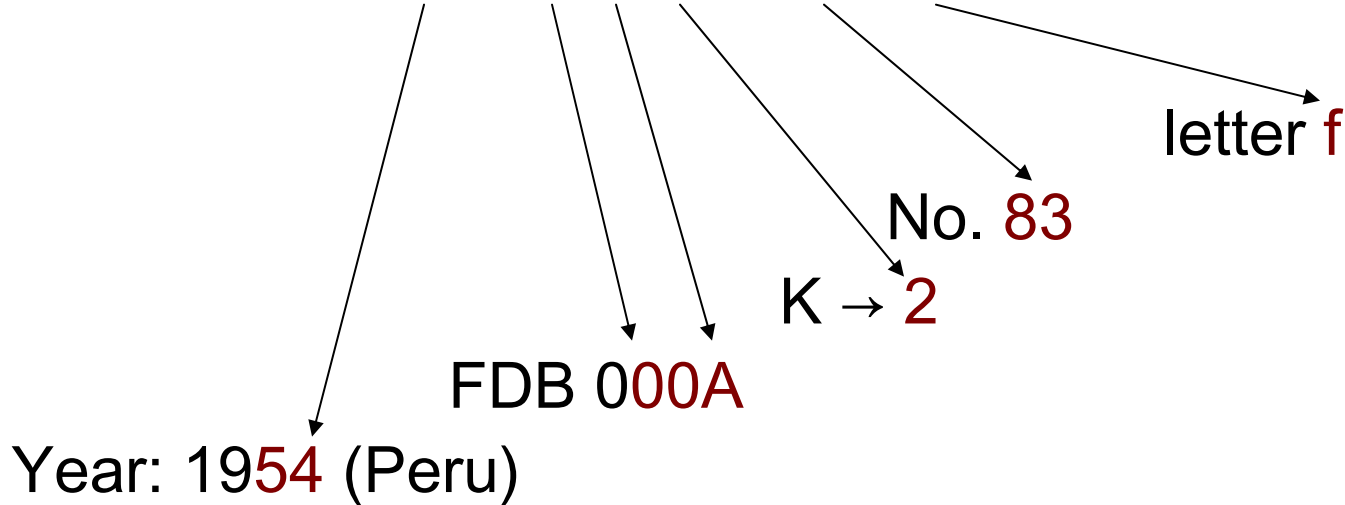

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 1: 54 00 1 2 0083 06 = Rauh K83f (1954)

Tephrocactus sp.

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 2: **94 87 0 74313 00** = Rauh 74313

Tambourissa sp.

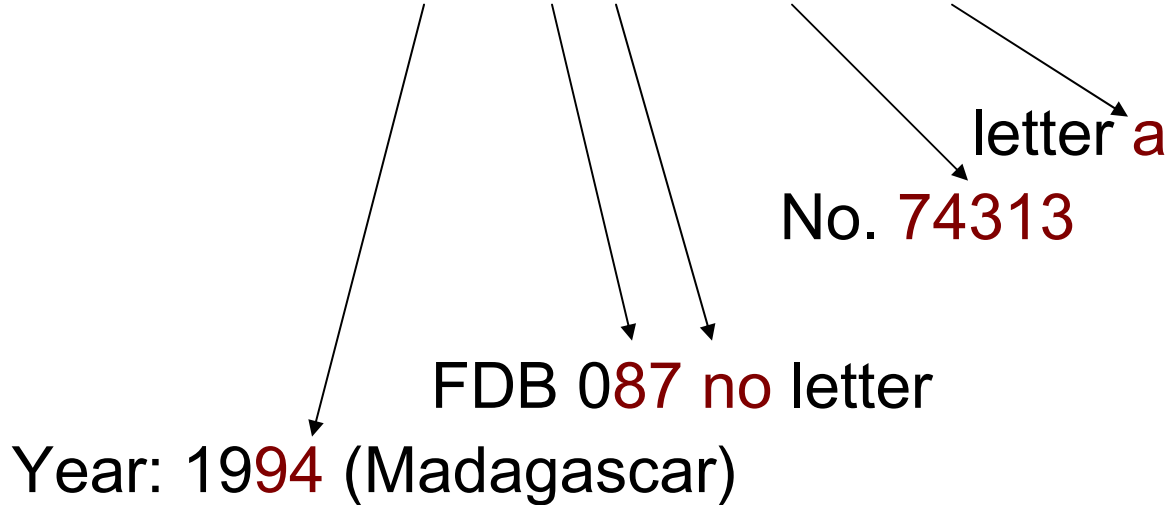

THE WERNER RAUH HERITAGE PROJECT

Solutions (2)

- „URCI“ = Uniform Rauh Collection Identifier

Example 3: **94 87 0 74313 01** = Rauh 74313a

Gen. et sp. indet. (Sapotaceae)

Acknowledgements

- **Prof. Dr. Marcus A. Koch** (HIP) for leading the project.
- **Prof. Dr. Wilhelm Barthlott** (Nees-Institute) for generously providing us with Werner Rauh's original fieldbooks.
- **The Klaus Tschira Foundation** for funding the Project.
- The **Heidelberg Academy of Sciences and Humanities** for providing technical help (ImageWare Components Bookeye scanning system).
- **Dr. Urs Eggli** for a very fruitful and helpful discussion on the project's data model.
- The **IOS** for inviting me to this meeting.
- Thank you **to you all** for your attention.
